National Grid Residential Energy Efficiency Programs Terms & Conditions

- 1. Incentives** - Subject to these Terms and Conditions, this program is offered by your National Grid ("National Grid" or the "Company"). National Grid, through its contractual vendor, Energy Federation Incorporated (the "Vendor"), will pay incentives to eligible customers of National Grid's Service Territory, for the purchase and installation of the equipment/products described in this literature and within this application.
- 2. Customer Eligibility** - Equipment installed from 8/1/07 to 12/31/08 is eligible. It must have been installed at the installation address listed on this application and the required documentation listed must be post marked by the Vendor, no later than 1/31/09. Equipment that is installed as part of an oil to gas conversion is not eligible for the high-efficiency heating offer in New York.
- 3. Post-Installation Work Verification** - The Company and Vendor reserve the right to perform a verification of the specified installation. If the Company or Vendor determine that the equipment was not installed in a manner that is consistent with program guidelines, the Company or Vendor may require that the installation be modified before making any incentive payments. The cost of such modifications is the responsibility of the customer.
- 4. High-Efficiency Heating, Water Heating, Thermostat or Boiler Reset Control and Window Incentives** - All installations must be completed in conformance with state and local code requirements and by properly licensed contractors.
- 5. Proof of Proper Installation** - As part of its incentive application, the Customer is required to submit dated copies of all invoices documenting the installation (including all materials, labor and equipment invoices) which reflect the actual cost of purchasing and installing the equipment and a copy of the National Fenestration Rating Council (NFRC) label(s) from each model window installed. If label is unavailable, manufacturer specification sheet with model number matching invoice may be substituted.
- 6. Limited Scope Review** - The scope of review by the Company and the Vendor and their Inspector of the installation of the equipment is solely to determine whether incentives are payable. It does not include any kind of safety review & should not be relied upon as one.
- 7. Incentive Amounts** - The Company will provide incentives for approved heating, water heating, thermostat, boiler reset control equipment, or replacement windows, up to incentive amount indicated in the program literature and within this application. Projects greater than ten (10) units require a pre-approval from National Grid for incentive funds to be reserved.
- 8. Payment** - The Company, through the vendor, expect to make incentive payments to eligible customers within 45 days of a satisfactory work verification. The customers must refund any incentive made to the extent the contractor or equipment does not satisfy program requirements.
- 9. No Warranties** - The Company and the Vendor do not endorse, guarantee or warrant any particular contractor, manufacturer or product installation. The Company and the Vendor do not make any representation of any kind regarding the results to be achieved by the High-Efficiency Heating, Indirect Water Heating, Thermostat(s), Boiler Reset Control or Replacement Window Program.
- 10. Changes in the High-Efficiency Heating, Indirect Water Heating, Thermostat(s), Boiler Reset Control or Replacement Window Program** - Equipment Incentive Program/Tax Liability Conditions and details of the High-Efficiency Heating and Indirect Water Heating Incentive Program are subject to change without prior notice and incentive offers may increase or decrease over time. The Company reserves the right to modify or terminate the Incentive Program without notice. Participants of the program may be subject to tax liability for the value of goods and services received through the program pursuant to state or Federal income tax codes.
- 11. Contractor Insurance** - The Company and the Vendor are not responsible for any damage that may be caused by or arise out of an installation of any equipment. The customer is responsible for selecting contractors who are qualified and carry adequate insurance coverage.
- 12. Email Contact** - The email address provided on this form will be used by National Grid to send email messages pertaining to this program. Subject to regulatory restrictions, National Grid may share your email address with other National Grid companies. National Grid does not otherwise share or sell customer email addresses and will not disclose your email address to other third parties that may want to market other products or services to you.

National Grid is one of the largest investor-owned energy companies in the world. In the US, we serve nearly 5 million electric and 3.4 million gas customers in Massachusetts, New Hampshire, New York and Rhode Island. Save energy and money with our award-winning efficiency programs. **Visit thinksmarthinkgreen.com.**
